Dear [Hiring Manager],

As a Cloud-certified graduate student with internship experience in AWS-focused environments, I'm excited to apply for a Cloud Engineer role. Through my AICTE internship and AWS Academy certifications, I've mastered AWS core services, deployment strategies, and cloud architecture principles.

I've also applied this knowledge in academic projects and labs where I designed scalable solutions and practiced real-world cloud administration skills. My familiarity with OCI and Azure, along with containerization using Docker and CI/CD tools like CircleCI, gives me a versatile edge in cloud-native development and DevOps workflows.

I'm eager to bring my problem-solving mindset and cloud expertise to your engineering team.

Sincerely,

Vigneshwar Reddy Gangireddy
